(LISTED BELOW)

SUPPLEMENT TO  
REPORT NO.

1. The first class for the purpose of training radar instructors has begun at the State Maritime School, "Panstwowa Szkola Morska", at Gdynia on 22 April 1949. This course is expected to continue approximately three months.
2. The class consists of 54 individuals in different age groups, but all have had considerable previous radar training. The majority of class members are to return to the Merchant Marine and a number to the Home Defense Forces, where they will be expected to pass on at least the more elementary radar techniques.
3. The faculty consists of the following instructors:
  - a. Engineer Kisielewski
  - b. " Jagodzinski
  - c. " Karolczak
  - d. Lt. Commander Adam Kon
  - e. Captain Tadeusz Rutkowski
4. It is the opinion in Poland, among individuals concerned with such matters, that this is the first serious attempt to bring Poland up to date on radar technics, and it can be expected that particular effort will be made to get new equipment from the United States or England for training and duplication purposes.
